I've got a little hope in my pocket
I want to share a bit with you
Just be careful that you don't drop it
But don't worry if you do
'Cause I got broken down inside me
And I might just need some help
But I will get by

And I've got demons in my history
Got bone beneath my skin
But I've been taken by a mystery
Yes, I've been taken in
And sometimes voices down inside me
Try to fight me for myself, I will get by

What have I got to live for
If there's nothing beating in my chest
What have I got to live for
When this world starts turning, it's burning me up
I'm alright

I used to think love was just a barter
Second hand coincidence
What doesn't kill you just makes you harder
So I used my common sense
Keeping cold to keep my distance
?Til you took my pride away, now I will get by
I am not afraid, no, I am not afraid
And I will not go crazy here

I've got a little hope here in my pocket
I want to share a bit with you
So just be careful that you don't drop it
But don't worry if you do
'Cause I got voices down inside me
And I might just need some help
I will get by

What have I got to live for
If there's nothing beating in my chest
What have I got to live for
When this world starts turning, burning me up

When my heart is hurting, I'm learning the rough
When this world starts turning, it's burning me up
I'm alright
