Find me, where you can find me
So tired of hiding behind these songs
And take me where you will take me
Back to a place I've know all along
the voice that calms the waves, sing out
And call my name

Sing over me, Sing over me
Sing above the noise that Ive been making
Sing over me Sing over me
All I ever needed was to hear your melody
All I ever needed was to hear your melody

Wake me, come on and wake me
So tired of living like Im asleep
And hold me the way you hold me
How you unfold all this unbelief
The voice that calms the waves, sing out
And call my name

Sing over me, sing over me
Sing away the silence that is breaking
Sing over me sing over me

All I ever needed was to hear you melody
All I ever needed was to hear your melody
Sing out, sing out, sing out my love
Sing out, sing out, sing out my love

Sing over me, Sing over me
Sing above the noise that Ive been making
Sing over me Sing over me
All I ever needed was to hear your melody
All I ever needed was to hear your melody

Sing over me, sing over me
Sing away the silence that is breaking
Sing over me sing over me
All I ever needed was to hear you melody
All I ever needed was to hear your melody
All I ever wanted was to be your melody
Sing out, sing out, sing out my love

Sing out
