Watch her take precaution preventing
What we left at home
Her beautiful fantastical scarring,
I'm indecisive um'ing and ah'ing

... The kids we left in the outskirts
Suffering all alone
Their terrible once and for all looks
This day is for the record books

'Cause I'm not getting no sleep
Cause something-is bothering me

So light a box of matches
And try and burn away
All the cuts and scratches

That got made on the way

The way we built our black hole
In sick, sick dreams
Our condition is incurable
We're sick, sick teens

Someone turned the lights down
And I tripped fell into your arms
Your beautiful fantastical flaws
I'm indecisive so, so unsure
Sometimes you got to hit go
And run from where you come
They're terrible once and for all warnings
They'll keep on haunting every story

'Cause I'm not getting no sleep
Cause something-is bothering me

So send our your whole army
And try and burn away
Every fucking memory
That got lost on the way

The way we built our black hole

In sick, sick dreams
Our condition is incurable
At six, sixteen
We fell into a black hole
In sick, sick dreams
Our condition is incurable
We're sick, sick teens

Something is bothering me
We fell into a black hole
Watch her take precaution preventing
What we left at home
That got lost on the way
The way we built our black hole
In sick, sick dreams
Our condition is incurable
At six, sixteen

We fell into a black hole
In sick, sick dreams
Our condition is incurable
We're sick, sick teens
