Spectrum of what dying eyes reflect  
Collects the congeries of abstract kinetic  
Utter comprehension  
Depends of the notional knife of the creator

Dense night prodigious attraction  
Elemental  
Mayhem of your parts  
Naked and skinless confront reality  
On the side of shattered neural trust

Ascension to the point of the realview mirror  
By the chariots of the Electric Emperor  
Through haze my abstract kinetic is more real  
Then you're feeling of quenchless reality
