I still want you but I'll beg you to go
I don't really need you but I'll beg you to stay
I wonder if you see through me
I see through your impeccable lies
You wonder if I'll catch on to you
Do you catch on to my defective lies, lies, love your lies
I won't go
I need it
I lust for you
Rough hands engulfing mine
Eager lips tasting mine
Bare chest becoming mine
Learn to love your fear
You're all mine now
I still hate you but I'll beg for your love
I don't really miss you but I'll beg for your time
I wonder if you'll destroy me
I destroyed your condemnable lies
You wonder if I will toy with you
Do you toy with my savory lies, lies, love your lies
You're all mine
You're all mine
You're all mine now
I can't deny you but I beg you to leave
I can't deny you but I beg you to leave
