We were driving along
But it felt like I was alone
Cause you and I weren't right
You can cut me out with a knife

We had to pull off of the road
Cause I felt like something was wrong
So we put a traffic sign in the middle of nowhere
Then fight in the night

[Chorus]
Breathe in, breathe out
Gonna get a grip
We're done, no doubt
Was it worth the trip
Breathe in, breathe out
I'm trying
Ain't gonna let you suffocate me
No matter how long it takes
Gotta breathe you out, out, out...
Out, out, out

So we finally got home,
A long day, I was tired from the road
It's gonna be a long night,
As I toss and turn to hold you tight

You've got women all wrong
Even though that it's time to move on
Took a while to realize
So we're goin' nowhere fight after fight

[Chorus]
Breathe in, breathe out
Gonna get a grip
We're done, no doubt
Was it worth the trip
Breathe in, breathe out
I'm trying
Ain't gonna let you suffocate me
No matter how long it takes

[Bridge]

Runnin' and changin', holdin' and waitin'
For love to come back when it's already fadin'
How we wasted too many risks
In this relationship

Lookin' for ways to get over the pain
Remember to breathe again and again
Gonna be strong

[Chorus]

Breathe in, breathe out
We're done, no doubt
Was it worth the trip
Breathe in, breathe out
I'm trying
Ain't gonna let you suffocate me
No matter how long it takes

[Chorus]

I gotta breathe you out
Gonna get a grip
We're done, no doubt
Was it worth the trip
Breathe in, breathe out
I'm trying
Ain't gonna let you suffocate me
No matter how long it takes

I gotta breathe you out, out, out...
Out ,out, out.
