Ohh, woo, hoo

We always were together  
Walking the same road, you and me like destiny  
But then the path had parted  
You went down one road and I went the other way

Loneliness, the feeling in my heart  
Is all I have to hold today  
Looking at the sky that's almost just about to cry  
I have to say, but I can't help but think of you

Ohh, ohh

I'm here beneath the night, and you're not there  
No I won't cry, won't cry anymore  
Trying hard to live a life without you  
Too peaceful, when I think about you  
Ohh, ohh

Maybe, you're seeing the same big sky  
A crescent moon, fades into the night  
'Cause it might be bringing us together  
You know I love you more than ever

Ohh, ohh  
Yea, yea, hey yea

The days are getting colder  
(Colder)  
Keeping my hands warm by myself  
Reality, I miss your arms so badly  
Want you here with me, want you here with me

Even though you call me

And tell me how much you love me, I get blue  
(I get blue)  
You know I wanna hear it  
But I really don't like to lean on you  
So I'll wipe the tears away

I'm here beneath the night, and you're not there  
No I won't cry, won't cry anymore  
Trying hard to live a life without you  
Too peaceful, when I think about you  
Ohh, ohh

I wonder when I would see you again  
Until that time again, I guess I'll have to live  
Feeling the power you gave me, when you hold me  
close  
And said I'll always love you, you know  
Ohh

Here beneath the night, and you're not there  
No I won't cry, can't cry anymore  
Trying hard to live a life without you  
Too peaceful, when I think about you  
Ohh, ohh

Maybe, you're seeing the same big sky  
A crescent moon, fades into the night  
I believe in bringing us together  
(Bringing us together)  
You know I love you more than ever  
(I love you more than ever)

Holding up my hands, can you feel the pain?  
I'm reaching out to you, Crescent moon

(Crescent moon)  
Hmm
