Johnny was an actor, oh you must have known,  
He wore his new Max Factor, nearly stole the show,  
You go and tell him he's not the only one

Night creatures, strangest features  
White faces and painted eyes,  
Tongue teasers, oh you young deceivers,  
Night creatures on your heels so high...

Angel was a dancer with a mean guitar,  
Played the big romancer,  
Like a movie star, too far  
Burning the film behind his eyes

Night creatures, strangest features  
White faces and painted eyes,  
Tongue teasers, oh you young deceivers,  
Night creatures on your heels so high...

Girly Jane was lonely,  
She gave me such a fright  
Well all her jewels were phoney  
But they looked as nice as ice  
Freezing the light behind the stairs

Night creatures, strangest features  
White faces and painted eyes  
Tongue teasers, oh you young deceivers,  
Night creatures on your heels so high...  
On your heels so high...
