### LIKE ROSES

Dreams, see them grow like roses  
So warm, so bright, they paint the night like roses  
My heart was numb and cold and you turned it to fire  
Every joy you inspire makes our garden of love grow so  
much higher

Dreams, like a flame inside us  
How they light up our eyes and they guide us  
And suddenly today you've grown into a woman  
So young, gay with magic songs to sing  
And your childhood is mine  
You brought another spring to me  
Now nothing more can shake me  
No wind, no rain, no storm could ever break me  
I'm flowing in your arms, the gentle waves caress me  
Possesses me, softly bless me

Dreams, thanks to you they've found us  
The sky was never quite so clear around us  
I want to lay my life before you  
Each moment of my life so gently at your feet  
Scattered like roses, like summer roses
