Dance in the old fashioned way  
Won't you stay in my arms?  
Just melt against my skin  
And let me feel your heart  
Don't let the music win  
By dancing far apart

Come close where you belong  
Let's hear our secret song

Dance in the old fashioned way  
Won't you stay in my arms?  
And we'll discover heights  
We never knew before  
If we just close our eyes  
And dance around the floor

That gay old fashioned way  
That makes me love you more

Come closer, forget about the others

It's nice to be like this  
Cheek to cheek in the old fashioned way  
It's funny but I have the feeling that  
We're dancing as our parents used to do  
Well, maybe they weren't wrong  
The world changes, love stays

Dance in the old fashioned way  
Won't you stay in my arms?  
And we'll discover heights  
We never knew before  
If we just close our eyes  
And dance around the floor

That gay old fashioned way  
That makes me love you more
