"History In The Making"

Visit "[History In The Making](#)" on MotoLyrics.com

Don't hurt yourselves patting your own backs
For doing us all this huge unwelcome favor
Cuz what the hell would we do without this
enlightenment?
I feel like I should be calling you my fucking saviors.
It's history in the making but what the hell is it really
changing
When you chastise us for the pesticides?
So just bestow the guilt trip and run and hide.
I'm guilty cuz my skin color says so
And oppressing people I don't even know?
I feel like I should be taking notes on this holier than
thou lecture.
Fuck, I thought I figured out the difference
Between wrong and right a long time ago
Please forgive me for thinking about my own life
For more than five seconds
