Always Is Always Forever (aka: I'll Never Say No To Forever)

Always is always forever
Cause one is one is one
Look inside yourself for your father
All is none all is none all is one

It's time to call time from behind you
The illusion has been just a dream
Valley of death and I'll find you
Now is when on a sunshine beam
So bring only your perfection
For there love will surely be
No cold, pain, fear, or hunger
You can see you can see you can see
