Cease to resist, come and say you love me
Give up your world, come on an' be with me

(I'm your kind I'm your kind) and I see
Come one come on
Ooh I love you pretty girl
My life is yours
And you can have my world

(I'm your kind I'm your kind) and I see
Never had a lesson, I ever learned
But now I know I could never learn not to love you
Come in, now closer, come in, closer
Closer, closer, oh

Submission is a gift, give it to your lover

Love and understandin', is for one another

(I'm your kind I'm your kind) and I see
Never had a lesson, I ever learned
But I know I could never learn not to love you
Come in, now closer, come in, closer
Come in, closer, oh (ahh... ahh...)
