Hoi! the black pirate lives only in the darkness  
Only in the darkness  
Only in the darkness of your soul and mine  
The black pirate, that black pirate  
He lives only in the darkness and  
Only in the shadows of your mind  
Spends standing in the shadows  
Standing in the corners all the time  
In my mind  
Inside my mind  
And I know you know how much you love me

It's just a nursery rhyme beyond the blind  
That lives far behind your dreams  
I know that you're true God  
I know that you're righteous brother and  
I know you're good and true  
There ain't no doubt about it  
I can look right inside of you  
And I see you pure in heart n soul  
Rolling with the holy ghost  
And the spirit of God  
Spirit of God now  
Spirit of God now  
Spirit of the holy ghost  
Spirit on love and  
All that is in the minds of  
Holy holy holy  
Holy holy holy  
A Che cza cza cza  
Sha cza cza cza cza..  
Cza la de de  
On roll roll roll roll roll  
roll roll roll roll roll roll roll..  
Ride da la da da da la de  
Yea I remember my mind's patterns  
The love you gave to me  
I seen that soul the butterfly so free  
I love you in the night  
Lonesome in the shadows of the cage  
Cage on the cage  
Rows of cages where man lives in his fear

All the things we do we try the best we can  
Doing it the best we can everyday  
One day one day one day one day  
At a time, sunshine  
One day at a time sunshine sunshine  
One day at a time sunshine sunshine  
One day at a time  
Calypso soaring reggae sayzee daga like to  
Wait til they get sol ay po re le un patti  
Pour one more wine  
Por las montanas en Argentina  
On caballos O Rita O corazon  
Vivida en brazilia  
Aunque yi si si se so se sus en cabacho  
Se ellos omer  
Sunshine  
Beautiful eyes I can't live without your love  
I see my big old horse now  
My big old thunder man  
He's the best of God  
He's a blue ribbon  
And a beauter can  
He's a thunder, general  
On the down great army of God  
Roll the song  
God spared his life for something  
We know it we can see it  
And we're bringing the big brother on home  
Bringing brother on home now  
Bringing my brothers on home  
Taking my soul, soldiers down to the edge of town  
Where we can be left alone  
Right on, right on the, right on the darkness in the black  
pirate  
Yea yea yea yea yea yea yea yea
