You're the only light we need  
By Your light we see  
All eternity  
The glory and the majesty

Of the new Jerusalem  
Where no sun will be  
For Your presence, Your glory  
Is all the light that heaven needs

You're the only light we need  
By Your light we see  
All eternity  
The glory and the majesty

We're a people bought by blood  
Brought together by the Son  
From death of life, we all believe  
You're the only light we need  
You're the only light we need
