We'll get lost in the tall grass, we won't know which way to turn, but to each other. We'll make love in the tall grass, and we'll never want to leave this forest again. Somebody stopped caring for this field but you'll never love me like you do here. The vines could wrap themselves around me but I wouldn't fight. As long as they've got you I've got you to. In the tall grass, in tall grass. Here I wear this dress, I know that you love this dress. I wear my hair down. It's dark but not cold, it's late but I don't want to go. Love me here in the tall grass. Somebody stopped caring for this field but you'll never love me like you do here. The vines could wrap themselves around me but I wouldn't fight. As long as they've got you I've got you to. In the tall grass, in the tall grass. We will live off each other. Stay with me in the forest, we will grow together, tall with the grass. We couldn't be closer, seen only by trees, naked in your arms. Somebody stopped caring for this field but you'll never love me like you do here. The vines could wrap themselves around me but I wouldn't fight. As long as they've got you I've got you to. In the tall grass, in the tall grass. We will live off each other.
