"Every Time I Hear Those Songs"

Visit "[Every Time I Hear Those Songs](#)" on MotoLyrics.com

His song comes on the radio, and brings back your
memory
And reminds me of the way that it used to be
You loved all his hits like "hello darlin" and "tight fittin'
jeans"
I just wish your leaving were "only make believe"

CHORUS

Every time I hear those songs it makes me think about
you
And how we used to sing along to all the ones that we
knew
It's not that they aren't good I used to love them to
But every time I hear those songs it makes me think
about you
He may have been the best friend that any song ever
had
But when I hear that growl in his voice it always makes
me sad
It hurts to hear him sing "I'm not through loving you
yet"
Lord only knows what I'd give if I could forget

CHORUS

BRIDGE

Daddy left us when I was only three
All he left behind were those Conway Twitty records
and me

CHORUS

Momma every time I hear those songs it makes me
think about you
