I can still see you standing there next to me  
in the county fair ticket line  
With cotton candy in your one hand and your other  
hadn in mine  
It seems just like yesterday, letter jackets and football  
games girl  
We've come a long way through the years  
had our fair share of heartache and tears

Chorus

We've had our ups and downs and turn arounds  
but our love was stronger than any fight  
Even when we lost control we never let go  
we kept on hangin' on for dear life  
I know no matter the size of the mountain you and me  
will be side by side  
Baby ain't life and love one big rollercoaster ride

Back in the day we were cool and crazy like two outlaws  
on the run  
Now making love means making babies  
and I swear we're having twice the fun  
It's been no walk in the park but then again that's not  
our style  
It wouldn't be too entertaining  
without a little drama every once in awhile

Chorus

Baby you still drive me crazy, you still make my heart  
skip a beat  
With those butterfly first time feelings  
you've always kept me on the edge of my seat

Chorus
