G C

I swore I'd never love again a promise I'd keep till the
end

D C G

But then you made a liar out of me

G C

But even a man of his words can't talk his way out of
the hurt

D C G

When everything reminds him of his old used to be
CHORUS:

D C

But you made me forget about

G D C G D

What's her name I can't remember a thing because my
mind is always on you

G D C G

I just draw a blank every time I try to think about the girl
who tore my heart in two

D C G

You made me forget about, what's her name

G C

Girl I was down and out without a shadow of a doubt

D C G

Until you shined your love light on me

G C

I lost my faith in love my soul had given up

D C G

It took a miracle to make me believe

CHORUS:

D C

But you made me forget about

G D C G D

What's her name I can't remember a thing because my
mind is always on you

G D C G

I just draw a blank every time I try to think about the girl
who tore my heart in two

D C

You made me forget about

G D C G D

What's her name I can't remember a thing because my
mind is always on you

G D C G

I just draw a blank every time I try to think about the girl
who tore my heart in two

D C G

You made me forget about, what's her name
