Sittin' here on my own alone
Staring into the candlelight
So afraid that you won't come home
That you won't come home tonight
Your way is my way
That's all I can say
I don't want you to leave some day
Feel so lonely
Don't know what to do
I would do anything for you
Oh girl I should let you go
Already tried but I can't
I can't set you free
So afraid of the end
You would never come back
Babe don't misunderstand
I should let you go
But you know that I can't
I can't let you go
So afraid of the end
Day is dawning the lights go out
Will my nightmare come true
You're still missing
Is someone else saying words
I should do to you
Every moment is touching my soul
Can't believe it, it hurts me so
Think you're leaving
I should do it before
I can't stand it no more - no more
It's the worst of all the feelings
And the worst of all the dreams
I ever had
I'm fellin sad
So I wish there'd be a better way
To make you understand
I know it's all up to you
So afraid of the end
