

Becoming The Archetype

"I AM"

In ages past, I spoke to man
Like man would speak to Me
I rode upon the four high winds
And crushed adversity

My power was shown in works of might
That My children might believe
The blinding weight of glory
No human eye could see

I AM THAT I AM

Now I move among your hearts
I swim inside your veins
I stay behind the scenes and speak
To hearts who would obey

My life infused with many sons
My truth inside your soul
My body is comprised of the nations
Who will make My kingdom whole

I AM THAT I AM

I and My Father are one
