So we reach out for the sun, girl
You should be the one, girl
To feel your arms around me
Let my dreams come true
So let's start and have some fun, girl
I'm always on the run, girl
There's no one else beside me
No one else but you
Girl, I wonder where you'll stay tonight
Stay with me 'cause I wanna hold you tight
I look out of my window, I can see the rain
Without you girl everything seems grey
I'll be there, oh baby I'll be there for you
I'll be there, to make all your dreams come true
I wanna do the things in love a man should do
So just take my hand and follow me to wonderland
So we reach out for the sun, girl...
Feel your touch everywhere I'm going to
No one else makes me feel the way you do
Please walk with me until the end of time has come
So just take my hand and follow me to wonderland
So we reach out for the sun, girl...
For so many years I built my world around you
My intentions are not hard to understand
Stay with me, be my friend, 'cause my life is in your
hand
No one else - let me shine - make me feel - please be
mine
So we reach out for the sun, girl...
