Save my heart now and forever
Keep my love for another day
I will never let you down and slip away
And I'll always carry you
Through thorns and roses
On our way
'Cause it's you and me
Every single day
Save my heart now and forever
Keep my love for another day
Only you make it a brighter way
With you I'll always stay
'Cause it's you and me
Only you and me every single day
I remember
Lonely nights and days
I've been waiting so long
To be near you
Crossed the lands
And crossed the oceans
Reaching out for you
And the day you stood before me
Made heaven come true
I try to show you the way I feel
But I just can't find
Words to tell you
So the only thing I'm sure about
Is >>I love you so
