Cant stop missing you  
Dont know what to do  
Baby think it through  
Cos I dont wanna see us  
Throw it away  
Im down  
Take a look around  
Weve come too far now  
And I dont wanna see us  
Throw it away

Weve been riding on a love train  
But lately baby we cant seem to stay on track  
We both agree that we need a change  
Lets find a way that we can care this love  
And back

Whats that I think about  
Aint no one walking out  
My days are lonely baby  
Its just you and me coming round  
Gotta get over this  
Baby dont let it slip away  
This is more than I can take

Cant stop missing you  
Dont know what to do  
Baby think it through  
Cos I dont wanna see us  
Throw it away  
Im down  
Take a look around  
Weve come too far now  
And I dont wanna see us  
Throw it away

Baby lets not go another day  
Dont ignite [?] all the love  
You know we have  
Whats it gonna take for you to stay  
Tell me baby so that we can make it last!

Whats that I think about  
Aint no one walking out  
My days are lonely baby  
Its just you and me coming round  
Gotta get over this  
Baby dont let it slip away  
This is more than I can take

Cant stop missing you  
Dont know what to do  
Baby think it through  
Cos I dont wanna see us  
Throw it away  
Im down  
Take a look around  
Weve come too far now  
And I dont wanna see us  
Throw it away

Baby we can start it all over, today  
And we can make it better  
I know that we dont wanna go our seperate ways  
So baby please stay..!

Cant stop missing you  
Dont know what to do  
Baby think it through  
Cos I dont wanna see us  
Throw it away  
Im down  
Take a look around  
Weve come too far now  
And I dont wanna see us  
Throw it away  
[x2]

Dont throw it away
