

## Charlotte Church "Dream A Dream"

Visit "[Dream A Dream](#)" on MotoLyrics.com

When the night is still  
And the sea is calm  
Lonely shadow, you call upon me  
Lay by my side  
Fear not tonight  
Lonely shadow, you'll find a new light  
Dream a dream  
And see through angel's eyes  
A place where we can fly away  
Ride with me upon a shining star,  
Above the moonlit sky  
We will find elysium

Hear the nightingale  
Sing a lullaby  
Lonely shadow, you'll find a new light

Dawn will be kind,  
All will be bright,  
Lonely shadow, rise from the darkness  
Dream a dream  
And see through angel's eyes  
A place where we can fly away

Ride with me upon a shining star,  
Above the moonlit sky  
We will find elysium

Dream a dream  
And see through angel's eyes  
A place where we can fly away

Dream a dream  
And see through angel's eyes  
A place where we can fly away

Elysium  
Elysium
