You got the wrong shoes honey, the wrong size  
You wear the left foot on the right side  
You got a sad left honey when you cry  
You know the answer still you ask why, you ask why

Walking in the sunshine in the middle of the night  
Paying bitches with the rain  
Abandon the real life and living out a dream  
I'm a mixed up girl, in a logical world

You got blue hair honey and... blond eyes  
Shock so bowling but the day today's a surprise  
You gonna real no honey when you get high  
You get warm welcome with the goodbye, when you  
say goodbye  
Walking in the sunshine in the middle of the night  
Paying bitches with the rain  
Abandon the real life and living out a dream

Just meet me the wrong side, meet me the... blond eyes  
I laugh when I cry I'm the one who's asking why  
I get high when I get low and I just want to show  
I'm a logical girl in a mixed up world, mixed up world

Walking in the sunshine in the middle of the night  
Paying bitches with the rain  
Abandon the real life and living out a dream  
I'm a mixed up girl, in a logical world

I've been walking the sunshine in the middle of the  
night  
I'll be watching the pictures fade away in the rain  
I've been dreaming of real life and living out a dream  
I'm a mixed up girl in a logical girl, I'm a mixed up girl,  
I'm a mixed up girl.
