Ohhhhhhh

Ahhhhhhh

Waited for the right one to find me

Wondered when the right one would come, would i

Would i see him that instant i see him, and i

And my hearts found that one

[Chorus]

Would I know

If he was right here beside, would i see

If he was in front of me, would i feel

Something inside that would let me know

That its right, that its real, would i see

Would i know

[Verse 2]

Waited for the right eyes to see me

Reaching for the right arms to hold, would i

Would i know i was just getting further, would i

Know when im getting close

[Chorus]

Would I know

If he was standing beside, would i see

If he was the one for me, would i feel

Something inside that would let me know

That its right, that its real, would i see

Could i trust what i feel

Would i knooooow

Would I see the one that i have signs for

Would i feel from that feeling inside

Would i know from inside of my soul

Would i knooooow

Now that i knooooow

Something inside that lets me noe

That its right, that its real, i can see

Now i know

Ohhhhhhh

Something inside that lets me know

That its right, that its real, i can see

I can trust what i feel

Now i know

Waited for the right one to find meee...
