Don't wanna let go don' you know
You the one I really need
Hold me closer baby set me free
The feeling is right so turn out the light
Its you and me tonight as close as we could ever be
I've been watching you and I like what I see
Now you walking up next to me I close my eyes and you
whisper to me
Don't wanna let go...
Can't deny how I feel now I know it's for real
You give more and I lose control stay with me you got
to hold on my soul
Don't wanna let go...
It's like a dream there's nowhere else I want to be
Two people stronger together
Just let me show you my love forever
Don't wanna let go...
Don't wanna let go...
