So if you see the stars tonight  
Than tell me what they say  
And let me know how bright they are  
And I will always pray

So if you see the stars tonight  
Than tell me what they say  
And let me know how bright they are  
And I will always pray

So if you see the stars tonight  
Than tell me what they say  
And let me know how bright they are  
And I will always pray

That one day you'll come down to me  
And tell me from above  
My angel from the universe  
The one I'll always love

So if you see the stars tonight  
Than tell me what they say  
And let me know how bright they are  
And I will always pray

That one day you'll come down to me  
And tell me from above  
My angel from the universe  
The one I'll always love
