So hey let me show you the way with my raving beats,
So you won't be alone, alone in the cold dark streets.
My girl I like to guide you with my raving beats
To a place on this earth with peace in the streets.
Rap: To all my brothers out there in wonderland
I want you all to wave your hands up in the air
C'mon throw these hands in the air
Here we go 1-2-3
Hey, hey, Let me show you the way now,
Hey, hey, If you think you can play too,
Hey, Hey, Let me show you the way,
With my raving beats, are you ready to play, hey.
I was dreaming of a place without fear and full of love
Where kids can play in harmony under stars up above.
I hope for all the kids who are alone in the streets
That they will find a way with my raving beats.
