Chorus:

Winds of time, gather around.
Give me wings to speed my way.
Rush me on my journey forward.
Let tomorrow be today.

You know you're my only love,
my only truth
I need you so much
I can't lose you now

Can't you tears in my eyes?
Can't you feel the pain of my heart?
How can I ever laugh again
when you're not by my side?

Chorus (2x)

I do this only for you
only 'cause you wanted me to do it
And my life will be lonely
without you, my love
You are my sun, my shining star

Chorus
