[performed by Ziggy Marley]

There's a rainbow in the sky all the time don't be blind
There's a rainbow in the sky all the time don't be blind
Don't be blind

Said you i'm living in my fantasy
but is you who is blinded by reality
the material world means so much to you
you just can't get what i'm telling you

There's a rainbow in the sky all the time don't be blind
There's a rainbow in the sky all the time don't be blind
Don't be blind

Cause in a town called sorrow there was joy
yes and there i met painless fear
freed he expressed emotions that egos fear
my life is full of colors yeah my mind is clear

There's a rainbow in the sky all the time don't be blind
There's a rainbow in the sky all the time don't be blind
Don't be blind

Found i mercy in every sunrise i am born again from
the womb of the night
all i have i have left behind
minds eye eyes eye a light will shine

There' s a rainbow in the sky all the time don't be blind
There's a rainbow in the sky all the time don't be blind
Don't be blind
