Wake up dear we've lost our way,
Your drunk and I'm sick... of all of this.

I bet if we could we'd up and move and away,
Pack all our bad memories and leave them here to
stay... ay... yeah.
Sleep if off... my sweet the window is cold on your face,
Lean back to me - back to me.

The taste of first kisses tend to fade away,
Kiss me again darling this time it's gonna stay... ay...
This time it's gonna stay... ay...

I bet if we could we'd up and move away
Pack all our bad memories and leave them here to
stay... ay... yeah
Or maybe we should stay... ay...

Wake up dear We're gone...
