Anything, everything we had is over
I made mistakes, you said goodbye
Don't let me catch you crying
Anything, everything we had is over
When it falls apart i won't be there, i won't be there

The story starts at our first show
Running the door dressed to impress a guy like me,
looking good
The conversation started right, i had you laughing
through the night
And i reeled you in, hooked and caught

One stab to the center of your heart
One cut is all you ever need
I don't want this anymore
But you'll never get me

Anything, everything we had is over
I made mistakes, you said goodbye
Don't let me catch you crying
Anything, everything we had is over

When it falls apart i won't be there, i won't be there

Fast forward just three days ago
I had it all and i let it go
Another reckless night and i hurt you again
And after the fifth or sixth drink
I didn't care what you would think
Am i guilty of lust? i'll plead the fifth

One stab to the center of your heart
One cut is all you ever need
I don't want this anymore
But you'll never get me

Anything, everything we had is over
I made mistakes, you said goodbye
Don't let me catch you crying
Anything, everything we had is over
When it falls apart i won't be there, i won't be there
