

Che Fu "Waka"

Visit "[Waka](#)" on MotoLyrics.com

Seldom the wind blows thoughts of refrain
As long as I'm nimble I'll locate your name
It powers my shield whilst I'm on my way
This love is simple nourishment for soul
Distance will strengthen until it's you I hold
Make yourself seen in my heart until your home

{ Chrous }

Verbalise how I feel when I'm with you
Centralise all energy til I get through
Til I get through til I get through til I get through

Mission near over goal is coming through
Can I see her until I break the news
Make yourself seen in your heart until I'm through

{ Chrous }

Verbalise how I feel when I'm with you
Centralise all energy til I get through
Til I get through til I get through til I get through

Moons will come and moons will go
Still there is you and I
Moons will come and moons will go
Still there is you and I

Singin singin

Verbalise how I feel when I'm with you
Centralise all energy til I get through
Til I get through til I get through til I get through
