Doesn't matter if you're wrong or right
Don't care if you sleep all day
All or nothing till you get it right
And we can all agree
Give up that silver lining
If you see gold

Ain't no surprise that the things we see
Don't blink, don't stare at me
If we don't think that we can get it right
And we see eye to eye
Why look for a silver lining
When it's all gold
Take a look before it gets too old

We're never gonna get out of this place
We're never gonna get out
We're never gonna get out of this place alive
You know we'll never survive
We'll never get out of this place alive

I'll be lucky just to get it right
And when you feel it you can bet all day
All or nothing till you get it right
And I can be your eyes
Don't want no silver lining
Just give me gold
It's a look that never gets too old

We're never gonna get out of this place
We're never gonna get out
We're never gonna get out of this place alive
You know we'll never survive
We'll never get out of this place alive

It's not easy to fall in love
We're not falling in it at all
All that's said to you and me
It's you and me that's all
You're on a merry go round and round
Losing all control

I'm preparing you tonight
For what I need and more

We're never gonna get out of this place
We're never gonna get out
We're never gonna get out of this place alive
You know we'll never survive
We'll never get out of this place alive
We're never gonna get out
We're never gonna get out of this place alive
You know we'll never survive
We'll never get out of this place alive
