Every day is a darker day
It's always gonna be that way
One step closer to mine
I know it's not respectable
But it is the best of all
One step closer

Relax your mind
It really doesn't matter if the Heavens is
gonna rain or shine
You're better of blind
If the lover don't find
Makes you one step closer to mine
Closer

One step closer
One step closer

Relax your mind
It really doesn't matter if the Heavens is
gonna rain or shine
You're better of blind
If the lover don't find
Makes you one step closer to mine
