Sun goes down night moves in
I don't need the pain again
Those x-ray eyes
It's a fascination
All lined up ready to go
Fully loaded overflow
High heeled mood
Let's go for some action
Man-u-lip-u-lator it's so easy when heads meet
Exploring but nightmares speak
Rumors fly idle speculation
(chorus 1)
Man-u-lip-u-lator tryin' to operate on you
Sticky situation I'd love to fall into
You're a man-u-lip-u-lator with a low low attitude oohoo
Like to love ya later 'cause I'm an operator too
Full alert defcon 4
Seal the windows lock the door
I in-coming
It's a natural reaction
Man-u-lip-u-lator tryin' to operate on you ooh

Sticky situation I'd love to fall into

Move it to the right
Holde me oh so tight
