My friends ask me if I'm doing okay
But it all depends on if you call today
So I guess that means I'm not doing so good
And I'd forget about you, baby, if I could

My friends ask me how I am tonight
And if I've heard from you then I'll be doing a height
And that's the trouble with the situation
We go up and down, in and out of love because

It's a circle game, I don't wanna play
I think I'm over it and then I hear you name
I get lost in the sound and I can't find my way out

It's a circle game, nothing's gonna change
Better half of me is telling me to lose your name
And I get lost in the sound and I can't find my way out

Everyday is different but it feels the same
My moods goes up and down with every move you
make
If I could I'd get myself off this ride
And we'd be on the same page at the same time

It's a circle game, I don't wanna play
I think I'm over it and then I hear you name
I get lost in the sound and I can't find my way out

It's a circle game, nothing's gonna change
Better half of me is telling me to lose your name
And I get lost in the sound and I can't find my way out

I want off of this merry-go-round
It keeps spinnin' me round and round
It gets hard to breathe when you're not with me
And an hour can feel like eternity

So baby, what we keep going
Round and round and round we go
Where we stop we never know
Round and round and round we go
Where we stop we never know

Round and round and round we go
Where we stop we never know
Round and round and round we go
It's a circle game

It's a circle game, I don't wanna play
I think I'm over it and then I hear your name
I get lost in the sound and I can't find my way out

It's a circle game, nothing's gonna change
Better half of me is telling me to lose your name
And I get lost in the sound and I can't find my way out
