Cheetah Girls
"I Like Your Lovin'"

Friends of mine try to change
My mind about loving you
They say I made a bad mistake

So I stop (stop) and I listen
Giving up just ain't no way

I'm like a man stranded on an island
Where's the nobody but me and you
Oh, it just couldn't be no better
I'd like to live here forever

And I just got to tell you
And I just got to tell you
I just got to tell you
Never gonna let you go

[CHORUS]
I like your loving, do you like mine
I like your loving, do you like mine
I like your loving, do you like mine
I like your loving, do you like mine

I'm like a man stranded on an island
Well, there ain't nobody there
But me and you, no, no
Oh, it just couldn't be no better
I'd like to live here forever

And I just got to tell you
And I just got to tell you
And I just got to tell you
Never gonna let you go

[Repeat CHORUS 4x to fade]
