give me some reasoning
for your lies and all your mistakes
youve done it too much
and im sick of seeing your face
In all my dreams
All my memories
They won't stop bothering me
I want you back, you hear,
I want you back tonight

give me some reasoning
why do i care so much about you
i never thought i would
come crying back to you
you keep appearing
In all my dreams
All my memories
They won't stop bothering me
I want you back, you hear,
I want you back tonight

get out of my way
leave me today
get out of my way
ive got nothing to say
get out of my way
leave me today
get out of my way
ive got nothing to say
In all my dreams
All my memories
They won't stop bothering me
I want you back, you hear,
I want you back tonight
