this is a call out to my past  
i was always the smartest one in my class  
but you kno i felt so empty inside

this is a story of my sadness  
and all of my emptiness  
i was a dork and everybody hated me

obviously that wasnt enough  
just to get through my life by growing up  
i felt so incomplete  
obviously that wasnt enough  
just to get through my life by growing up  
i felt so incomplete

this is a call out to all of those  
who never realized life wasnt all books  
thats how i felt when i met you

but you still saw me as just a freak  
a freaking weirdo and a geek  
you couldnt see the truth in me

obviously that wasnt enough  
just to get through my life by growing up  
i felt so incomplete  
obviously that wasnt enough  
just to get through my life by growing up  
i felt so incomplete

obviously that wasnt enough  
just to get through my life by growing up  
i felt so incomplete  
obviously that wasnt enough  
just to get through my life by growing up  
i felt so incomplete
