(so lets go, lets go, get away from it all!)

I'm sick of this place, it always is the same
Except when it gets colder
I'm so confused, not knowing what to do
It's now the end of the short summer

All our mistakes are catching up to us
Everything we did, and every single flaw
Haunted by faces you saw years ago
Now and forever let the truth be told

So lets go (let go)
Lets go (lets go)
To Ohio
Get away from it all

Clocks turning back, the days all grow darker
Just like my shallow heart (my shallow heart)
It's all just a repeat, past years were the same thing
Why must you be so very hard (so very hard)

All our mistakes are catching up to us
Everything we did, and every single flaw
Haunted by faces you saw years ago
Now and forever let the truth be told

So lets go (let go)
Lets go (lets go)
To Ohio
Get away from it all
So lets go (let go)
Lets go (lets go)
To Ohio
Get away from it all

All our mistakes are catching up to us
Everything we did, and every single flaw
Haunted by faces you saw years ago
Now and forever let the truth be told

Now come with me, we'll get away
I always knew that I would never stay
I'm just so tired of my everyday routine
Now please will you come with me?

So lets go (let go)
Lets go (lets go)
To Ohio
Get away from it all
So lets go (let go)
Lets go (lets go)
To Ohio
Get away from it all
So lets go (let go)
Lets go (lets go)
To Ohio
Get away from it all
So lets go (let go)
Lets go (lets go)
To Ohio
Get away from it all
