Has it ever felt this wrong  
To have your best ideas lost in a song  
That no one can derive the truth  
From what's spoken, spoken so soon  
Now what can you see  
Why can't I get out what's inside of me  
I wish that I could just explain how I feel  
But every time I try, every time I tryâ€¦.

I got carried away in all my fame  
But I swear I never forgot about you  
I was dragged around with all this sound  
But I swear my dreams were still about you

What is so special about this  
That makes me want to end this kiss  
Right in the middle  
While I'm still little  
Why can't I just let it all go  
And be free just like I've always dreamed  
It just seems that it's taken over  
I'm afraid to change, I'm afraid to change

I got carried away in all my fame  
But I swear I never forgot about you  
I was dragged around with all this sound  
But I swear my dreams were still about you  
I was swept off my feet and into the deeps  
But I swear you are still in my heart

And if you left me tonight  
All alone in the parking lot I would cry  
Maybe you are just the jealous type  
But you know I don't think that inside  
The truth is I don't know who you are  
You don't seem to even know yourself  
So who do you think that you are fooling  
I don't think that I can take it, I can take it  
I can take it, I CANT TAKE IT!!!

I got carried away in all my fame

But I swear I never forgot about you  
I was dragged around with all this sound  
But I swear my dreams were still about you  
I was swept off my feet and into the deeps  
But I swear you are still in my heart  
Swear you are still in my  
Swear you are still in my  
Swear you are still in my heartâ€¦
