What the hell is wrong with me
I don't know but it's not helping
More than that it's driving me insane
And creeping into my skin

So I walk up to him the other day and say
What the hell do you want from me
He says why the hell you talkin like that
I say I dont know but you are whack
I say tell me what I did to deserve this
He says what do you mean by that
I say have i ever been there fer you
He says yeah but he wasnt there fer me

What the hell is wrong with me
I don't know but it's not helping
More than that it's driving me insane
And creeping into my skin

I say you never loved me you never cared
you never even gave a shit about me aware
she says oh so you finally figured out
You werent more to me than a fucking cow
And I say so you go mess around with another guy
Cheat behind his back and tell him big lies
I'm sick of your shit so turn and run
She says oh well i never... we are done

What the hell is wrong with me
I don't know but it's not helping
More than that it's driving me insane
And creeping into my skin

So all you people out there
This is my rage its unfair
People give so little about me
I'm nothing no I am nothing
No one cares about me
Or at least they dont show it
And when I fucking tell them this
They just give me shit

So I am done I'm saying Goodbye
I fucking hate this world
Everyone can go die

What the fuck is wrong with me
I don't know but it's not helping
More than that it's driving me insane
And creeping into my skin
What the fuck is wrong with me
I don't know but it's not helping
More than that it's driving me insane
And creeping into my skin
Its creeping into my fucking skin
