What is the result of our never ending talk
When really it is all our own fault
Why dont we just offer defeat
Who is our true master
And why is it never truly over

The answers to life
Wont come clearly wraped up
When nothing is right
Nothing is wrong

What is the result of our never ending talk
When really it is all our own fault
Why dont we just offer defeat
Who is our true master

And why is it never truly over

The answers to life
Wont come clearly wraped up
When nothing is right
Nothing is wrong

Never will i say this again
Because I will never do this again
Nothing is ever completely right
Everythings out of sight

The answers to life
Wont come clearly wraped up
When nothing is right
Nothing is wrong

Is wrong(repeat 3x)
