

## Beenie Man "Toy Friend"

Visit "[Toy Friend](#)" on MotoLyrics.com

never end, never ever end..  
we'll never end..never end.

.  
She don't really need a toy friend.  
she don't need a toy friend for a boyfriend.  
no...  
and she don't really need another man.  
and if i open my heart.  
i can see where i'm wrong girl.

and if ever you're in my arms again  
this time i'll love you much better  
if ever you're in my arms again  
this time i love you forever  
this time we'll never end  
never end..never end..never end

well i think she require  
the flames from a fire  
I am her desire  
bad man can't retire  
fire and attire  
I run down da bwoy  
and i run down dwem liar  
??

She don't really need a toy friend  
she don't want a toy friend for a boyfriend  
no  
and she don't really need another man  
and if i open my heart i can see where i'm wrong girl

and if ever you're in my arms again  
this time i'll love you much better  
if ever you're in my arms again  
this time i love you forever  
this time we'll never this time we'll never end  
never end..

She's been reminisin'  
when hugging and kissin'

but my love she's been missin'  
she's sorry of dissin'  
coz she made up some freak ting  
her man wearing G-string  
my house she been stalking  
I knew she'd been laughing  
coz..

She don't really need a toy friend  
she don't want a toy friend for a boyfriend  
no  
and she don't really need another man  
and if i open my heart i can see where i'm wrong girl

and if ever you're in my arms again  
this time i'll love you much better  
if ever you're in my arms again  
this time i love you forever  
this time we'll never this time we'll never  
this time we'll never this time we'll never end  
never end..never end..  
never end..  
if ever you're in my arms again  
this time i love you forever  
if ever you're in my arms again  
this time i love you forever  
this time we'll never end  
never end.. never end..

well i think she require  
the flames from a fire  
I am her desire  
bad man can't retire
