Heavens down
And hell is up
All rights reversed
Proven by the planets and their movements
While down on earth
The primal chaos
Is pushing backwards
But even then the danger never stops
And no one's stopping
It never stops
And no one's stopping.

It never stops
And no one's stopping.
All rights reversed
Undertaking copy left we're flying sideways
While down on earth
The primal chaos
Is pulling forward
And there are other threats below
It never stops
And no one's stopping
