Just get yourself high, just get yourself high
Just get yourself high, just get yourself high
Just get yourself high

Don't rely on this, to get you high
Don't rely on us, to get you high

Wait, hold up, electrify, death defy, elect the high,
connect the sky
To the sensei, blade keeps spinning
All around the world, but the world keeps sining
I've been in crazy situations
Since I've learned the art of watching patience
Big shout to the hip hop nation, just dance with elation
yeah

Don't rely on this, to get you high
Don't rely on us, to get you high

Yo, put the needle on the record, here we go again
It's the brand new funk for real
Mass appeal, it's everlasting asking you forecasting
direction
Insurrection is served on a twelve inch platter
Mostly incorrect data, over matter

Is a mind that you'll find, it's design is international
rational
Back in the day we listened to rap, Bill Gates in the
backpack
Yo, try many styles for the three one, the center by
intern
Would rather be one two you can watch what you do
And live in the now but believe there's only a few
Sometimes you've got to get inside to get it high

You don't know, you don't know, you don't know
You don't know, you don't know, you don't know
You don't know, you don't know

Don't rely on us, to get you high
Don't rely on this, to get you high

Don't rely on us, to get you high
Don't rely on this, to get you high

Just get yourself high, just get yourself high
Just get yourself high, just get yourself high
Just get yourself high, just get yourself high
Just get yourself high, just get yourself high

Just get yourself high, just get yourself high
Just get yourself high, just get yourself high
Just get yourself high, just get yourself high
Just get yourself high, just get yourself high
Just get yourself high, just get yourself high
