Hello, boys and girls, my name is Fat Lip  
And this is my friend, Sammy the Salmon  
Today we're gonna teach you some  
Fun facts about salmon and a brand new dance

Let me introduce to you a brand new dance  
I know you're gonna love it if you give it one chance  
It's not complicated, it's not too hard  
You don't even have to be a hip hop star

See, anyone can do it, all you need is style  
Listen up, people gang, I'ma show you how  
Your hands to the side as silly as it seems  
Shake your body like a salmon floating upstream

(I float upstream)  
You know how we do it  
You know how we do it again

All my peeps spend part of their life  
In fresh water and part of their life in salt water  
Wow, very interesting  
They change round a couple of days after spawning  
then we die

When I first did the salmon all the people just laughed  
They looked around and stood like I was on crack  
I heard somebody say out loud  
"What the fuck is that?  
This nigga's dancing like a fish, while he's doing the  
snap"

But the more I kept doing it, the more they were feeling  
it  
And then I heard some bitches say, "Yo, that nigga's  
killing it"  
By the end of the night, everyone was on my team  
And the whole club was dancing like a salmon floating  
upstream

(I float upstream)  
You know how we do it

You know how we do it again

Most of our friends find their home waters by sense of  
smell

Which is even more keen than that of a dog or a bear

Wow, my family also rely on ocean currents, tides

The gravitational pull of the moon

(I float upstream again)

The moon? Fish pay attention to the moon?

Wow, who knew?

Did you know

What?

That I could go to Japan and back?

You're kidding me? Amazing, Geez

Polluted water can kill both baby salmon

That are developing and the adult salmon

That are on their way to spawn

Wow, what a shame, what a shame

Hey, kids, hey give it up for Sammy the Salmon

And his amazing salmon dance

What ya say? Alright, who's hungry?
